MARYVILLE COLLEGE,

East Tennessee,

FOR THE ACADEMIC YEAR, 1880-81.

CINCINNATI:
Elm Street Printing Co., 176 & 178 Elm Street.
1881.

Baldwin Hall. *Anderson Hall.* *Memorial Hall.*

GENERAL STATEMENT.

The College grounds consist of sixty-five acres, and for beautiful scenery are not surpassed by any in the country. They are elevated and undulating, covered with a beautiful growth of evergreens, and command a splendid view of the Cumberland Mountains on the North, and of the Smoky Mountains on the South.

On these grounds have recently been erected three new buildings at a cost of fifty thousand dollars.

The location is as remarkable for its healthfulness as it is for its beauty.

The central building is adapted to and used exclusively for College purposes, and in honor of the founder of the Institution, is called ANDERSON HALL.

BALDWIN HALL, named in honor of the late John C. Baldwin, of New Jersey, is occupied by the young ladies. In this hall ample and pleasant accommodations for board are provided for all the members of the Institution who may choose to board there.

MEMORIAL HALL is occupied by the young men.

In the basement of Baldwin Hall are six, and in that of Memorial Hall are ten kitchens, for the benefit of students who may prefer to board themselves.

These halls are large and convenient, well lighted and ventilated —in every way attractive—and will accommodate one hundred and thirty students.

All the rooms, in both buildings, are furnished only with stoves, bedsteads and tables. Students must furnish their own bedding.

MARYVILLE COLLEGE.

MARYVILLE COLLEGE is situated in Maryville, on the Knoxville and Charleston Railroad, sixteen miles south of Knoxville.

The grand motive of the founder may be stated best in his own words: "*Let the Directors and Managers of this sacred Institution propose the glory of God and the advancement of that kingdom purchased by the blood of his only begotten Son, as their sole object.*"

Inspired by such a motive, he gathered a class of five in the Fall of 1819, and in prayer and faith began and prosecuted the work of his life.

The College was in continuous operation from its beginning up to the spring of 1861, when its work was suspended by the war, but resumed again in the Fall of 1866.

During its time it has educated and sent forth, in the single profession of the ministry, more than one hundred and fifty men, nearly all of whom are natives of East Tennessee.

Its work thus far has been accomplished with very limited means.

Its principal and almost only endowment have been the prayers, the faith, the self-denial and the indefatigable labors of its founder and professors associated with him.

The friends of the Institution are resolved to sustain it, and are making every effort to secure for it such an endowment as will enable it to do well the great work for which it was founded.

Young ladies qualified to join any of the classes in the College, are allowed to avail themselves of its advantages.

The privileges of the Institution are open alike to all denominations of Christians. No particular religious belief is demanded of any one.

Fitz, New York; a large *Air Pump* and *Hydraulic Press* of great power; a large *Holtz Electrical Machine*, made by E. S. Ritchie & Sons, Boston; Ruhmkorff's *Induction Coil*, with Foucault's *Contact Breaker*, imported from France.

A number of specimens have been purchased to illustrate facts in Archæology, Mineralogy, Geology, Conchology, Ornithology, Botany, etc., and a Society connected with the College has been organized, which has for its object the mutual improvement of its members in the Natural Sciences, and the collection of specimens for the College Museum. Already over one thousand specimens have been obtained, and the friends of the College are earnestly requested to make further contributions.

All unexcused delinquencies are registered; and when the number amounts to five, or any number more than five and less than ten, notice thereof is given to the student, and to his parent or guardian.
